Gábor Misi

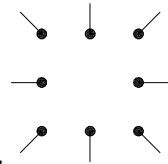

Black pin or white pin?

A Workshop Handout

32nd Biennial Conference of
International Council of Kinetography Laban

2022

Theory. Pins to indicate the placement of the feet.

Black pins: relationship of the centers of the feet.

White pins: relationship of the touching parts of the feet,

heel to heel and/or toe to toe

(1st position by definition of Szentpál)

heel or toe to the middle of the foot

(3rd position by definition of Szentpál)

[in-between

narrow and wide 3rd position by definition of Szentpál]

heel to toe

(5th position by definition of Szentpál)

Footprint drawing elements:

left foot: right foot: center of foot: ● contact of feet: ◎

Open positions (on Szentpál's theory)
